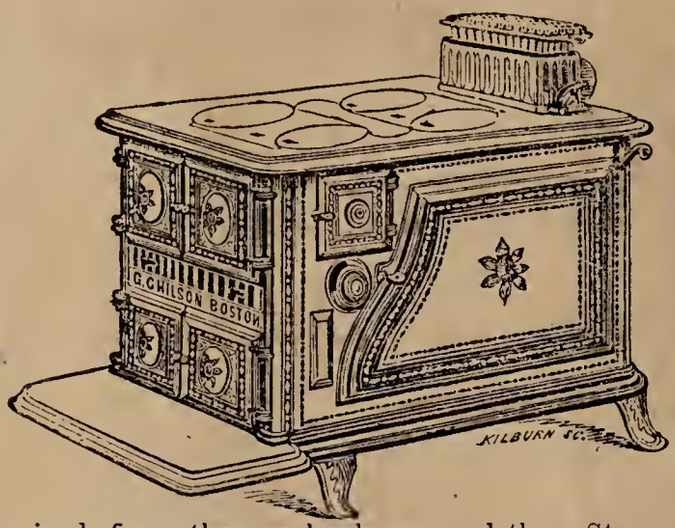
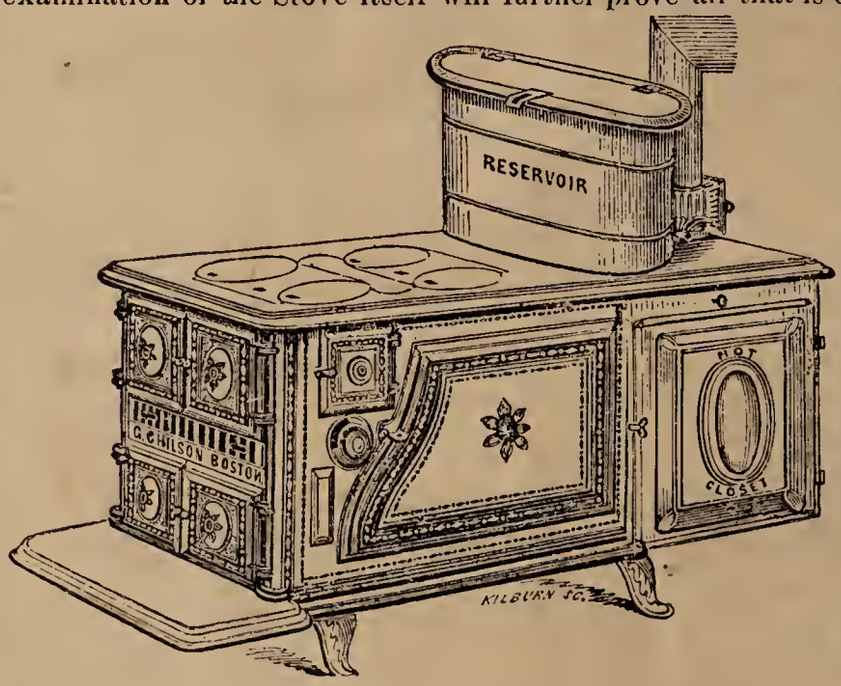
CHILSON'S

NEW COOKING STOVE.



Believing that great improvements could be made in the construction and workmanship of Cooking Stoves, and that such improvements would be appreciated by the public, and feeling convinced that a long practical experience in the manufacture of Stoves would enable the subscriber to be successful in the undertaking, he has devoted himself energetically for two years to this object; and, as a result, is now prepared to show, he is happy to say, the most important improvements ever made in Cooking Stoves in the United States. This statement is fully confirmed by the large number of Testimonials received from those who have used these Stoves the past season, and five minutes' examination of the Stove itself will further prove all that is claimed for it.



Sizes suited to all practical purposes, from that of the smallest family to the largest class of Hotels, with or without WATER FRONTS, EXTENSION TOPS, HOT CLOSETS, RESERVOIRS, &c., and fitted for either Coal or Wood.

A large supply of these Stoves, together with the CONE FURNACE for Brick work or PORTABLE CASINGS: COOKING RANGES, PARLOR STOVES, FRAME GRATES, REGISTERS, VENTILATORS, &c., &c., constantly on hand, and

TRUSSES, ELASTIC HOSE, &c.

CODMAN & SHURTLEFF,

13 and 15 TREMONT STREET,

BOSTON,

MANUFACTURERS AND IMPORTERS OF

Surgical and Dental Instruments,

Besides a complete assortment of articles intended for the exclusive use of the Medical and Dental professions, have always in store, at the lowest prices, a great variety of the following articles, suited to the wants of the general public: —

TRUSSES.

A large assortment of best patterns from which to select to meet the requirements of each case. If convenient, persons requiring Trusses should call at our establishment, where they can have a suitable Truss carefully fitted by a competent and experienced person, familiar with the anatomy of hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also the measure around the person, two inches below the top of the hip-bone. If the rupture is at the navel, the measure should be around the body at the navel.

ELASTIC HOSE,

For Varicose Veins, Swollen Limbs, and Weak Joints. Of these goods, we have several classes of silk and cotton, possessing different degrees of elasticity, — the stout silk being usually the most satisfactory. The sizes are, full length (of leg), three-quarters, half, or knee-hose, knee-caps, and anklets.

Also Elastic and Spring Abdominal Supporters, Shoulder Braces, Suspensory Bandages; Apparatus for Weak Ankles, Bow-Legs, Club-Feet, &c. Also Crutches, of various and most improved kinds; Syringes; Rubber Urinals, to wear on the person day or night, for males and females; Galvanic Batteries; Hearing Trumpets, Auricles, and Conversation Tubes for the Deaf; Respirators, to prevent coughing on entering cold or warm air; together with many other articles for use of the sick and invalids.

For Ladies, separate rooms, and attendance by females.
N. B. — A liberal discount to the trade.

OFFICE OF ATLANTIC WORKS.

We know by experience, and take pleasure in testifying, that we have found it in every instance fully equal to your claim, "that it is the best pump now in use."

We believe yours to be the only one yet constructed which will pump lard at all times and seasons of the year satisfactorily. NORTH, MERIAM, & CO.

MESSRS. GEO. F. BLAKE & CO.:— BOSTON, May 11, 1868.

Gents,—In reply to yours of the 9th inst., we would say, the pump you built for pumping *thick beer mash* works to our entire satisfaction; it throws a full stream of thick mash, or clear liquor, even when at boiling-point. It is all right in every particular.

We have used other styles of pumps, but yours is the only one that will pump hot beer mash, and keep the valves free.

The internal arrangement of the parts is so simple that it is not liable to get out of order. As we have used it now four months, has had no repairs, and it works as well to-day as when first put up, we therefore recommend it as invaluable to brewers.
